

For monitoring the occurrence and elimination of slight infestation of the cloth moth (*Tineola bisselliella*) in closed area. This trap is not effective against warehouse moths.

ACTIVE INGREDIENTS: cloth moth sex pheromone

PHYSICAL PROPERTIES, APPEARANCE:

triangle shaped, glued paper cardboard with hanger, with a rubber dispenser

TOXICOLOGY

As this trap does not contain any toxic insecticide, it is environmentally safe.

ADVANTAGES:

- The sex pheromone incorporated in the dispenser effectively attracts cloth moth species for 10-12 weeks.
- The glue remains effective for a long period.

USES

It is recommended to use at least one trap per wardrobe or upto 16 m² indoor space.

**PRODUCT FOR
PROFESSIONAL AND
AMATEUR USE**

**EXPIRATION PERIOD:
2 years**

PACKING:

12 x 2 trap/box

75 cartons

100 traps

50 cartons

DIRECTIONS FOR USE:

- Fold the cardboard sheet to form a triangle.
- Remove the protecting foil from the adhesive side of trap only for 2 cm.
- Take the dispenser out of the hermetically sealed pouch and place it on the hanger in the middle of the trap.
- Place the appropriate part of the hanger into the holes on the edge of the cardboard sheet, then fold the trap to create its final shape and fix it to the other side of the hanger.
- Hang up the trap, or place it on a shelf in the cupboard.

Place the trap to a dust-free area. Check at regular intervals. Replace the trap with a new one when full of insects, or contaminated.

After use the trap can be thrown into the trash. In case of higher infestation, simultaneous use of PROTECT® Cloth moth Killer Cassette is recommended.

WARNING:

The product should be applied according to the directions for use and also by keeping the general safety regulations pertaining to such products. Do not touch the sticky surface of trap by hand! Wash hands after use. Keep away from children.

STABILITY:

It can be stored in original package in a cool, dry and dark place for 2 years.
