PRODUCT FOR PROFESSIONAL AND AMATEUR USE

**EXPIRATION PERIOD:
3 years**

PACKING:

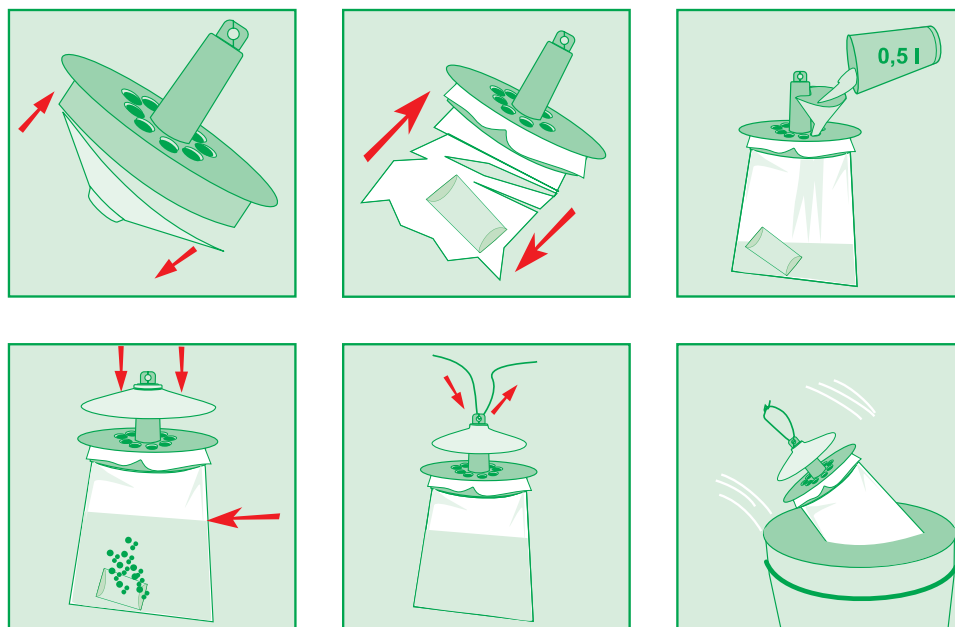

KS-16009 	 12 boxes	 16 cartons
KE-16617 	 20 traps	 18 cartons

INSTRUCTION OF USE:

- Take out the trap, the funnel and the copper-wire from the packaging.
- Fold out the plastic bag.
- Insert the funnel into one of the holes of the trap entrance.
- Pour approx. 0.5-1,0 litre lukewarm water into the bag.
- Remove the funnel.
- Firmly insert the yellow lid on top of the trap house.
- With the help of the attached wire fix firmly the trap at the required height.
- The attractant is packed in water soluble foil. Pending on the heat of the water the material will dissolve within 10-30 minutes.

In case of evaporation of the water, occasionally fill up with water.
When the trap is full with flies dispose of to the household waste.

WARNING:

Keep out of reach of children.

Place the trap at a height where children and domestic animals can not reach it.

Wash hands after use.

STABILITY:

It can be stored in original package in a cool, dry and dark place for 3 years.
